It starts with a unique business challenge

Do you have the right MRO products when you need them? Do you get the attentive service your businesses MRO products require? Do you have an MRO business partner or just several individual companies you do business with?

***Whatever your challenge may be, Winzer can help you reach your individual goals and help you plan for the future.
..at Winzer, we are "Service That Works!"***

At Winzer, we understand that today's marketplace revolves around a seamless supply chain and dedication to details. Our unique franchisee-owned business model empowers your local representative to provide the ultimate solution to your business. Winzer brings you an unmatched range of products, supplies and solutions. With the industry's most knowledgeable and tenured sales force, a partnership with Winzer offers unmatched service, customer relations and creative answers to your business needs...Our success comes from the success of our customers. Our local franchisees are here to provide you with the products you need when your job demands them, and our custom-tailored bin-stock solutions put your most important products directly at your fingertips.

Quality Compliance & Assurance

Quality is deeply rooted in Winzer Corporation's business model and Winzer is committed to providing the highest quality fasteners, repair supplies and support services in our industry. Our growth and stability since 1978 has been based on one simple principle: Quality products and attentive service create lifetime relationships.

QUALITY
ASSURANCE

Stringent Supplier Selection

While Winzer Corporation is not a manufacturer of any of the products we distribute, we have implemented processes and procedures that ensure only the highest-quality products and suppliers enter into our supply chain. While there are thousands of manufacturers of the products we distribute, our vendor-base revolves around a tight core of tenured manufacturers and distributors.

Winzer is...

SERVICE
THAT **WORKS**[®]

Winzer's fastener operation revolves around an elite group of suppliers and manufacturers. This tight knit grouping ensures Winzer is able to maintain the highest quality products available today. Committed to quality, Winzer refuses to "Shop Around" for the lowest cost product. Rather, we maintain interactive relationships with our suppliers to maintain the cost, quality and service. Winzer's primary fastener products are supplied through Nucor, Brighton-Best International, Metric & Multistandard Corporation, Continental Aero, Star Stainless and Lindstrum Metric.

Maintaining The Highest Standards

Winzer's fastener standards revolve around the Fastener Quality Act (FQA), Public Law 101-592. As a result all of our fastener suppliers and manufactures are required to adhere these standards.

NUCOR -- Nucor's fastener business foundation is based on a commitment to: Quality, Integrity, Competitive Pricing, Service and Continuous Improvement. At Nucor Fastener, their policy on testing and certification is simple: they test 100% of their production lots to ensure absolute quality. Throughout every step of the manufacturing process they utilize in-process controls and conduct mechanical and dimensional audits to continuously monitor quality. Final inspections are conducted in their accredited lab prior to packaging.

It's this type of rigorous testing which has earned us them quality system registrations including ISO9001:-ANSI/ISO/ASQ Q9001-2008 and ISO/TS 16949:2009. Nucor also offers rotational capacity (ROCAP) testing. Additionally, PPAP(s) (Production Part Approval Process) and ISIR(s) (Initial Sample Inspection Report) paperwork is available for Nucor products.

Chemical and physical test reports (MTR's) are supplied free of charge, and raw material and/or secondary processing certifications are available upon request.

Brighton-Best International

Brighton-Best Laboratory Testing Division is accredited to the requirements of ISO/IEC 17025:2005 by The American Association of Laboratory Accreditation (A2LA). The Laboratory Testing Division of Brighton-Best uses the most advanced fastener inspection equipment available today. Variable thread measuring systems are utilized, with all results electronically compared to the applicable specification and standard. Custom programming has been developed and implemented for the electronic gathering and storage of all data. Brighton-Best's measurement and test capabilities include: Tensile Strength, Proof Load, Rockwell Hardness, Thread Functional Diameter, Thread Major Diameter, Socket Broach Depth, Angles and Radii Linear Measurements and Diameter Measurements. Brighton's technicians are fully-trained and certified in the operation of all measuring and test equipment and data collection software.

Metric & Multistandard Corporation

Metric & Multistandard is a wholesale distributor of metric fasteners and industrial components. Metric & Multistandard is the oldest and most experienced "metric only" fastener distributor in the USA offering superior products, technical knowledge and support. Metric & Multistandard is certified ISO 9001:2008.

Continental Aero

Since 1948, Continental-Aero has distributed the largest locknut inventory in the United States. Continental Aero is certified ISO 9001:2008.

Lindstrum Metric

Lindstrom Metric procures products only from quality-approved certified vendors. All vendor certifications are kept on file as required. In addition, all incoming products are visually and dimensionally inspected as they are received. Stringent checks and balances are in place for all outgoing Lindstrom orders to ensure product integrity. Lindstrom Metric maintains up-to-date Certificate of Conformances, Chemical and Physical Certifications, Hardness Testing Certifications, Production Part Approval Process (PPAP) and Plating Certifications.

Unmatched Product Expertise

At the heart of Winzer's internal quality operation is our franchise professionals and product management team. These highly trained product professionals participate within organizations such as ASTM, ASME, ISO, NACE, ASM, API, RCSC and SAE. Winzer has a complete understanding of these standards, and works diligently to stay at the forefront of the fastener industry.

Specifications & Standards

Winzer is committed to providing consistent and compliant products through our network of independently owned franchise businesses. For over 35 years, Winzer has provided the level of dedicated service, support and quality your fastener business requires. Simply put, our fasteners make the grade.

The Winzer solution...

Winzer is a leading distributor of Maintenance, Repair and Operations products. Having served the Industrial, Manufacturing and Automotive industries since 1978, we firmly believe that by combining the right products, state-of-the-art logistics and unmatched industry expertise, Winzer is able to adapt to the specific needs of your business and create Unconditional Value. Winzer customers define value in their own terms. Winzer's commitment is to gain a complete understanding of those terms and translate that into a totally integrated and successful MRO solution. Simply put...the Winzer solution is an extension of your business.

Delivering on Productivity & Efficiency

The cornerstone of Winzer is our commitment to service. Our locally owned franchise sales force ensures the ultimate customer satisfaction by providing the hands-on service your MRO products require. We measure our success by the success of our customers, making us your partner in business rather than simply another supplier.

Quality

We stand behind the products we sell and offer the industry's highest quality fasteners and MRO products from names you know and trust. Combined with an industry-leading product satisfaction guarantee, you can rest assured that a Winzer solution has your best interests in mind.

Product Variety

Our extensive product range allows for simple, consolidated shipments and billing. With access to over a million products, Winzer truly is your single source MRO supplier and solution.

Customized Solutions

We understand that one size does not fit all. With a Winzer solution, our franchisees are able to develop an MRO solution that is as unique as your business. From on-site bin-stock programs to cost recovery technology solutions, our no-nonsense approach to business will tailor fit a solution that increases your company's productivity while eliminating costly stock-outs and down-time.

Custom Designed
Storage Systems
to organize your supplies

SERVICE
THAT **WORKS**®

Winzer can custom design a storage system to fit your needs. In addition, our planned inventory control systems help with parts organization, saving both time and money.
